## THE HOME MINSTRELS.

### Merry Jesters Greeted With Full House.

Friday evening Jupiter Pluvius opened the gates of the heavens and the water descended. The Jesters' Club Minstrels seemed destined to meet with a poor house and there was considerable disappointment at the downpour. But the people would not be disappointed. They turned out in such force to help along the good cause that every seat was filled. They were well repaid for their trouble. J. W. Hey acted as interactor; Rube Gee and L. M. Gaetz, bones; and J. La France and P. E. Kent, tambos. The circle consisted of W. T. Coote, W. Edmand, H. Wallace, R. McElveen, J. English, E. W. Wright, E. B. D. Porter, Hacking, W. Wilson, and J. Hamley. Musical director, H. U. Thompson; stage manager, J. W. Hey.

The first thing the audience noticed, after they had laughed themselves into a good humor over the funny program, was the nice piano procured for the occasion and the superb manner in which Mr. Thompson manipulated the keys. There was not a hitch throughout the entire program in the music, and still it was not too prominent. The opening melody by the entire company was well taken, and at once showed training and considerable effort on the part of Mr. Hey. The first part was a continuous round of meriment and consisted in brief of chorus behind curtain; anvil chorus from Il Trovatore; waltz song "Mary"; drinking song; "My Dainty Cigarette"; sleighing chorus, with bells; whistling interlude; Lullaby's serenade; final Bones and Tambos. "Down Where the Cotton Blossoms Grow" by P. Kent was good; he is rather broad for a darkey. "Common sense," very common, by Mr. La France, took immensely, especially with the young ladies, who giggled when they saw that white spot at his collar band turn round. "Poor Old Joe," by Mr. Coote, was thought by many to be a deception, they swore he was hiding behind the scenes while that decrepit old gent from Calgary took his place. Mrs. Coote swore that man was not her Willie. "Every Little Bit Helps" by Rube Gee, with Uncle Happy's hat on, brought down the house. "Under Southern Skies," by Mr. Wright, was one of the best of the evening; he was too frightened to smile, but the way he "rolled dem goo-goo eyes" at the girls, in silent supplication, brought forth bursts of applause. "Nobody," by Harry Wale, was a gem. If it had not been for a hole in the roof, specially made to let the yell out, he would sure have raised the roof. "Lindy Lu" by Mr. McElveen, was well received, and "Gratitude," by "Jack Gaetz, brought the first part to a close. Mr. Gaetz is, to use an old saw, a whole team in himself. As end man and general booster he took his part to perfection and his song was loudly encored.

In the second half, W. Edmand and E. R. D. Porter, in "Hatology," were very amusing. Edmand taking his part particularly well. Harry Wallace nearly killed Julius Caesar, and Bob McElveen serenaded his lady love, which touched a funny fancy of the audience, and he was recalled. Percy Kent, Rube Gee, and Jack Gaetz all contributed to the last half of the program with comic selections and funny remarks, and the old gent with a white woolly circle on his head, who took Mr. Coote's place, again favored the audience, much to Mrs. Coote's disgust. The program came to an end with the singing of the National Anthem. The proceeds, which total over \$100, go towards paying off the liabilities of the Hockey Club. Mr. Hey was unparing in his efforts to train the Jesters, and deserves special mention for his work; Mr. Thompson, also deserves special mention for his good work at the piano.

### WANTS MORE BRIDGES.

Edward Michener, M. L. A., returned from Edmonton yesterday, where he had been interviewing the members of the Government on certain matters. He has been working hard to interest the Department of Public Works in the construction of more bridges out in the west country, and yesterday he brought down the departmental engineer with him and they drove out to look over the country, and Mr. Michener will explain the great necessity that exists for a bridge over the Horseguard and also over the Lobstick. The chances are these bridges will be built.

### Cadet Corps Inspected.

Lieut. Col. Cruikshank, D. O. C. Military District No. 13, was in Red Deer Monday inspecting the Cadet Corps. He was very well pleased with the drill indeed claiming that the lads were fully up to the boys in Calgary or Edmonton who had been drilled a similar period. Dr. George is to be congratulated on the splendid report. It was unfortunate Sergeant Oliver was unable to attend as a large share of the honors is due to his untiring efforts in drilling the corps.

### Horn Hill Annual Picnic.

### Stettler Play at Red Deer.

Stettler brought a strong football team to play the locals on Monday last. The weather was fine and the grounds were in good shape. There has been a marked improvement in the play of the Stettler team and they have a much faster team than when Red Deer played them last. The game, which was played in the afternoon, started off with the sun in Red Deer's favor and before long Hewson scored on a pretty pass from Robertson, but by a hard rush Stettler evened the score. Robertson scored again for Red Deer and Stedman shot nicely but the ball hit the cross bar. Shortly after half-time Red Deer had a penalty kick but failed to score Stettler goalkeeper saving nicely. The Stettler boys then did some nice playing and finally evened the score which stood 2-2 at time. Fairley of Innisfail refereed. Following was the lineup:

Red Deer	goal	Stettler
Davis	backs	Piterson
Domoney	backs	Gill
Roberts	backs	Howson
Castle	half backs	Bavon
Krause (Capt)	half backs	Pratt
Ball	forwards	Legg
Robertson	forwards	Lowry
Stedman	forwards	(Capt) Lee
Hewson	forwards	Riggs
Main	forwards	Jenkins
Birnie	forwards	

Ponoka play at Stettler Friday and Red Deer play at Ponoka on Monday next.

### SASKATCHEWAN LAND CO.'S LAND TO BE SOLD.

The News has it on good authority that the Saskatchewan Land company will place the large tract of vacant land surrounding Red Deer, owned by them, on the market. This we are informed, will be done as soon as the affairs of the company are straightened out and certain accounts settled which will only take a few weeks at most.

This will be good news to the citizens of Red Deer. For years the vacant lands held by Mr. Moore in the vicinity of the town at high rates has helped retard our progress and kept good citizens from locating here because they could not get what land they wanted. It is to be hoped the land will be sold at reasonable prices when we feel assured there will be no lack of enthusiastic buyers.

### PLURAL MARRIAGES.

It is reported that the Women's Councils of the towns and cities in British Columbia are co-operating in a movement to bring about an investigation of rumors imputing polygamy to the Mormons of Southern Alberta. The various local councils of the former province will, it is said, pass resolutions and circulate petitions calling upon the Dominion Government to take cognizance of these rumors, to make thorough enquiry as to the grounds of them, and to take prompt steps to put a stop to any practices that may be discovered for evading the prime requirement of our marriage law. Hints and more or less open allegations of polygamy are from time to time made in respect to the Alberta Mormons, and they are always met by emphatic and unreserved denials by men authorized to speak for the accused sect.

The Toronto Mail and Empire in speaking on the subject, says in justice to the Mormons, who are a hard working, honest, industrious people, the Government should take steps to set at rest the rumors that keep cropping up about polygamy.

### SHEEP RAISING.

The Alberta Homestead, in its last issue, said:  
"If some farmers would build an inexpensive barn and fit it up

properly, then put some good ewes in there in the fall and let them lamb in December or earlier, and raise these lambs on good milking ewes, they would make money by selling spring lamb about this time. In many cities east this sort of lamb is bringing 25 cents per lb. and the supply is never sufficient. These lambs at 3 to 4 months of age can be run up to 60 to 85 lbs. This is not theory but is being done. Some of our bush land will run the sheep in summer. Running the sheep up at night will lessen the danger of ravages from coyotes.

The lamb we are getting now is last year's small yearlings. We know of at least one bunch of lambs raised, as we describe, this last winter in Alberta. It pays."

As an old timer we are not going to contradict the Home-stand, but it is our opinion, based on some knowledge of sheep raising, that it would be impossible to have ewes lamb along in December, unless it might be the Horned Dorset, which is a small and unprofitable sheep compared to the Southdowns and other large breeds. The mating period is generally from about October to February, and the period from mating to lambing about five months, therefore it would be impossible to have lambs as early as December. The Dorset sheep may mate twice a year, which would explain their difference to other sheep, but they are so unprofitable that there is hardly a breeder of them in the east.

### MEN AND PARTIES.

Has Mr. Brodeur or Mr. Pugsley any claim on the Liberal party? If so, what can it be? So far as Mr. Brodeur is concerned, the account should be squared.

He was in Parliament in 1891, when the grafting in the Public Works Department was disclosed. He formed one of the effective Opposition which harassed to distraction to Ministerialists, but his ability was not such as to bring him to the front, in spite of the splendid opportunity offered.

He was just an ordinary member.

While Mr. Tarte and Mr. Lister were Lieutenant-Generals, Mr. Brodeur was a corporal, perhaps a private. He was a constant supporter of the Liberal party in Opposition and in office, and in due course he was lifted to the Speakership and then to the Ministry, mainly because he was "available," and not because of any great intellectuality. He allowed no trace of independence to color his thought or

to mar his prospects.

He stood by the Liberal party and the party made him a Minister. It seems like a fair exchange.

When a man becomes a Minister he opens a new account with his party.

Inasmuch as good legislation and good administration strengthen a political party before the country, the Minister may fairly claim the ardent support of the Party so long as his legislation and administration are of this quality.

But if either one or the other is weak his claim must be lessened accordingly.

For example, Mr. Brodeur allowed his Department to get into such an offensive condition that two Commissions were needed to uncover a few of its faults.

The Party was about to go to the country and the leaders were obliged to apologize for Mr. Brodeur and the Department of Marine and Fisheries.

When it should have been the Minister's privilege to help to carry the Government, the Government was forced to carry him.

It seems that the balance is in favor of the Party rather than of Mr. Brodeur.

The belief that it is necessary for any political organization to carry its weaklings on litters, using a good force of the ab bodied as bearers, is wholly fallacious.

In like manner the Liberal party owes nothing to Mr. Pugsley.

But Mr. Pugsley owes something to the party, if only an apology for dragging better men than himself into the slough he dug in New Brunswick.

The moment that any Minister of the Crown brings himself under suspicion that moment he stabs in the back the political party which conferred upon him the highest honor in its gift.

When that party clings to him and tries to excuse him, it only takes his faults upon it and paves the way for the rejection, and, perhaps, utter destruction, by the electorate.

Leaving aside the moral aspects of the question, the political leader should play a square game in order to guard the good name of the party that made him—Toronto News.

By the Standard Oil Company the price of crude oil has been dropped at Petrolia by ten cents a barrel during the past few weeks. Since the Ottawa Government has given the Standard control of our oil business it can pay what it likes for crude and charge what it likes for refined. The Laurier Government has been a good friend to Mr. Rockefeller.—Toronto Mail.

Several of the Ministers at Ottawa are preparing for the regular European tour at the country's expense. It will probably take ten thousand dollars each for the little outing. It may be all right, but the hard working citizen, who struggles through the long summer months without a holiday, feels that there is a stone loose somewhere, and this money might be saved to the country.

In a short time Sir Frederick Borden, Minister of Militia and Defence, will go to London to attend the defence conference, and it is said by men closely in touch with public affairs, that he will not return, but will be appointed to the office of Canadian High Commissioner in place of Lord Strathcona, who wishes to retire. Sir Frederick's promotion leaves vacant the portfolio of Militia, and it is understood this will be offered to Mr. Carvell, M.P.

The match resulted in a win for the Pine Lake team by six points. The light was glaring and uncertain, and the wind in the morning was very tricky. The total aggregate scores were—Pine Lake 350, Innisfail 374, three ranges—200, 500 and 600 yards—being shot.

The Murry hotel, one of Innisfail's oldest land marks, was destroyed by fire on May 28th.

**Three Transcontinental Railways engaged in great Race.**

One of the greatest railway races that has yet characterized the railway development in the west, is now on between the Grand Trunk Pacific and the Canadian Northern railways, to locate a line through from Vancouver to the Yellowhead, where it is intended to connect with the Pacific coast over the Rockies, than at present exists over the C. P. R.

The Canadian Pacific Railway will now jump into the race, utilize their route located 30 years ago along the North Thompson river, to the Yellowhead, commence construction north from Kamloops this summer, and eventually connect the new route with the Winnipeg-Saskatoon Wetaskin line now under construction, is the latest development in the big race, news of which was brought to the city this week by T. K. Wright, who left the survey parties of the Canadian Northern on Thursday, and who told a Journal reporter the story of the race as it has progressed thus far, between the survey parties of the two railway companies, who within sight of each other, for some weeks have been staking off their lines on either side of the North Thompson.

Mr. Wright a construction engineer from Detroit, who came west a year ago, has spent the winter in the Skeena river district, and a month ago came down the coast and up country where he fell in with the railway surveyors on the North Thompson. He is a guest at the Yale.

C. P. R. GET BUSY.  
Realizing that the other two transcontinentals are about to beat them to it in locating a shorter route to the Pacific, thereby assuring themselves of the grain shipments from the Edmonton district, and from Northern Alberta, the Canadian Pacific are getting busy, are awaiting the possibility of the North Thompson route, which is really the original route of that railway to the coast, located 30 years ago, and later abandoned, and according to a statement Mr. Wright heard a C. P. R. man make, will place construction gangs on the route this summer.

The old C. P. R. survey is complete north from Kamloops to the Yellowhead, and a large part of the right of way is cleared. This will give the big transcontinental a beautiful start on the other railway companies, proving the statement is true that they will utilize the route to connect up through the Yellowhead, with the line that will be completed and in operation through Saskatoon from Winnipeg to Wetaskin this fall.

C. N. R. WORK.  
A week ago yesterday, the Canadian Northern survey parties had completed 47 miles of survey north from Kamloops along the west side of the North Thompson river. This is the party with which Mr. Wright has been working. Of the 47 miles, 20 miles out of Kamloops is in charge of C. F. Hanning, and they were on a party working south from the Clearwater, in charge of W. Irvine. Irvin is now working north with his party from the end of the 47-mile stretch towards the Yellowhead. Hanning has taken his

party into the Yellowhead and will work back to meet Irvine's party, running down along the North Thompson from its source near Tete Juan Cache.

G. T. P. IN A HURRY.  
On the opposite side of the river two Grand Trunk Pacific parties are working with all speed to complete the preliminary surveys from Kamloops north to the Yellowhead. They are not taking time to finally locate any of their surveys, but are rushing through with the preliminaries. The party working north from Kamloops is in charge of Engineer Dunn, W. F. Graham, the young engineer who spent two years in the mountains locating the final survey of the transcontinental through the Yellowhead, is now on his way north from Kamloops into the Yellowhead, with 75 pack horses and a large party of men, and he will work south from the Yellowhead to meet Dunn's party.

C. N. R. STAND TO WIN.  
Present indications, judging from all circumstances, are that the Canadian Northern will be the winner of the big race, and that they will be the first to handle Alberta grain out of Edmonton over the North Thompson route for Vancouver ports.

**Dominion Day Sports at Trenville.**

A grand celebration and Basketball match will be held at Trenville School House on Dominion Day July 1st, commencing at 10 o'clock sharp. Refreshments served on grounds. Dancing in the school house commencing at 8 sharp in the evening.

The Olds Gazette says: Dr. W. G. Fowler, who had charge of Dr. Steven's practice for a couple of weeks recently, and who was in charge of Dr. Milne's practice at Trochu, whilst driving from Trochu to Huxley to attend a game on May 24th, met with a runaway accident, by which both bones of his right leg were broken near the ankle. Dr. Stevens was telephoned for, and arrived at Trochu at 1.20 a.m. on Tuesday morning, and reduced the fracture on Tuesday, about eighteen hours after the accident happened.

The rumor circulated some few months ago to the effect that the C. P. R. had purchased the Galt mines at Lethbridge, has at last been substantiated, and a bulletin has been sent to all Canadian Pacific railway agents instructing them to provide adequate amounts of Galt steam coal to farmers who require the same for steam plowing. The report has previously been either ignored or persistently denied by the railroad officials, but they admit that the C. P. R. has purchased the controlling interest in the mines, and will operate them in the future.—Albertan.

**OIL BEARINGS ONCE IN 925 ACRES**

Here's a test that proves the bearings of our discs in this Champion Disc Drill to be dust-proof. We ran a disc surrounded by sand under heavy pressure for many hours and sowed an equivalent of 1,000 acres. In that time we sowed the bearings only twice. This test will prove true on every disc-drill bearing. The sand out shows below a right and left view of these bearings as well as the discs. The sanding the balls. This valuable feature is one peculiar to the Champion Disc Drill. The indexes tell accurately just how much you are sowing: the force feed neither makes nor cracks the seed; the rows are 6 inches apart.

## Regular Meeting of the Board of Trade.

The regular monthly meeting of the Board of Trade was held Tuesday evening last week in the Oddfellows' Hall, President Brumpton and Secretary Munro together with Messrs. Greene, R. L. Gaetz, Gibson, Mott, Smith, Galbraith, Snell, Humber, Hill and Wolfner being present.

Mr. Greene, for the Industrial Committee, verbally reported progress in several matters. The Eddy Co. would not establish in Alberta without investigating Red Deer. The pamphlet proposed was waiting the receipt of some further statistics, after which estimates would be prepared.

The matter of having the Town Engineer take levels at the inlet and outlet of the Great West Lumber Co.'s canal and dam, suggested in the last report was again urged by Mr. Greene and Mr. Mayor promised to see the Engineer in regard thereto. The company, when they get the levels on the power available and the cost of developing it. They would make the town a proposition to co-operate in building up the walls and dam, and the company would deliver power for manufacturing purposes, and for natural gas boring at a low rate. Mr. Greene said a three foot rise in the canal, which would cost some \$3,000, would give 4,000 horsepower, according to a former estimate; a five foot rise would give 21 or 22 feet of a drop. In answer to a question as to the effect of the Western General Electric Co.'s franchise, Mr. Greene remarked that development across the river was just as good as in the town.

As to the natural gas, since the success at Calgary, the opinion was that it ought to be reached at Red Deer. Various figures and places for boring were suggested. The committee were awaiting further information and would report as soon as possible.

Mr. Galbraith for the Commercial and Publicity Committee, reported progress with the Exhibits Building, which would be pretty well completed next week.

The railway situation was also informally discussed. The chairman said that the surveyors told him that they were not only surveying, they were locating the road. They had come north practically all the way in township 26 which would bring them west of Pine Lake and they would come through by Edwail to strike the C. & E. line three miles east of town. This party was not going west at present. Mr. Mott said that the C. N. R. was going to build a branch line to the Fork Packing Plant, but there was nothing definite as yet.

The meeting adjourned at 10.10 p. m.

## THE RED DEER FAIR.

Exhibition Association Making Arrangements.

The directors of the Red Deer Exhibition Association have been settling things in shape for the Fall Fair which will be held the last week of September or the first week in October, pending word from Mr. H. A. Craig, Superintendent of the Fair, and institutes as to a definite date.

The prize list has been revised and \$100 will be offered in the children's department this year.

Mr. E. Michener, M. P. P., has offered a first prize of \$100 for the best exhibit of natural products, bar livestock in a competition for the six local improvement districts of the Red Deer constituency.

Mr. Michener is interesting the Councils in the matter. The Association will supplement this handsome gift with other prizes.

It has been decided to sell during the summer admission and exhibit tickets at 4 for \$1 which will enable the holder to draw admissions and also entry of exhibits without charge. Two large prize winners of past years are donating all their prize money this year to help the fair.

The competition for best kept farms will be continued and probably one of the best field of growing grain.

A new feature this year will be special prizes for singing and marching in a competition for the rural schools.

The directors are making every effort to make this year's fair one of the best yet held, and are asking the loyal support of all the Red Deer constituency.

## THE C. P. R. COMING.

Route to Red Deer Decided Upon.

Town Clerk, A. T. Stephenson, has been notified by the Department of Railways and Canals that the C.P.R. is applying for a route map from Langdon to Red Deer. This is the Cheadle-Alix branch spoken of so much. The letter to Mr. Stephenson reads:

DEPARTMENT OF RAILWAYS AND CANALS,  
Ottawa, May 29th, 1909.  
File No. 11700.

Sir,—Referring to an application made by the Canadian Pacific Railway for approval of a route map of the proposed location of their line of railway from Langdon in a northerly direction, 45 miles, and from 45 to mile 102, where it joins the Calgary and Edmonton Railway.

I have to inform you that such application has been set down for hearing by the Minister at this office in the Western Block, here, on Friday, the 18th June next, at 10 o'clock a.m.

I am, sir,  
Your obedient servant,  
L. K. JONES,  
Secretary.

The Town Clerk,  
Red Deer, Alberta.

The line will come north in township 26 almost the entire way, and will join the C. & E. line at Tuttle, a siding about three miles south of town. For some reason the C.P.R. seems disposed to keep their movements quiet at this point, but it is our firm conviction, and has been for some time, that there will be something doing in railway circles in Red Deer before very long. Look at the expenditures of the C.P.R. the past year. A \$35,000 bridge, a \$25,000 coal chute, a roundhouse costing \$10,000, vast quantities of siding, a stock yard, and many other improvements, such as tanks, water works, etc., which leads one to infer preparation is being made for a much larger traffic than is at present passing over the line. The next step, we hope, will be a fine commodious new station, suitable for the requirements of Red Deer for many years to come.

MAKING BIG PROFITS.

Evidence before the railway commission at Brockville shows that the Canadian Express Co. on a total paid in capital of \$27,000, has now an equipment valued at \$212,719 and earns on an average \$217,729 a year.

The Dominion Express company on \$25,500 paid in capital (which has been repaid) has an equipment worth \$592,329, and for the past five years the average net profits have been \$520,230.

The Canadian Northern Express company's original owners only sold \$5,000 of stock. The property is valued at \$308,393 and the net profits last year were \$57,402.

The Grand Trunk Pacific Express company only showed results for two months' business, which were \$725 profit.

The despatch which brought these items of information concludes by saying "the Express companies have completed arguments against a reduction in rates." They must have a clever lawyer to be able to produce any kind of an argument against such figures. To people out here it looks as though a reduction in express rates was more than overdue.—Calgary Herald.

GIVEN AWAY  
\$5,125. To Piano Purchasers in Red Deer and Central Alberta. \$5,125.

Be Wise. Act Quickly.

SOLVE THIS REBUS AND WIN A PRIZE OF \$100.00

Having made arrangements with BEST BROS. to act as our agents in Red Deer, with a view to establishing our house and goods permanently throughout the Province of Alberta, and with a growing ambition to excel in our line, and stimulated by the kindly feeling of a large number of greatly pleased customers who purchased pianos of us through our recent GREAT REBUS SALE held in Edmonton, who stand ready to vouch for every statement made in this advertisement, we have decided to give the people of Red Deer and readers of this advertisement, a special opportunity to secure a piano by distributing \$5,125.00 in prizes, as follows:

To the first person who correctly solves this rebus we will issue a credit due bill for \$125.00 good for its face value apply on any new piano in our immense stock. To each of the next five we will issue a due bill for \$100.00. To each of the next fifteen we will issue a due bill for \$50.00. To each of the next twenty we will issue a due bill for \$25.00; and to each of the next twenty-five we will issue a due bill for \$20.00, aggregating \$5,125.00 which will go to our customers in Red Deer and vicinity, instead of giving it to the newspapers.

Read the letters we publish. We have many more on file in our office from people who secured pianos through our former Rebus Contest and which prove conclusively that Canadian people are quick to recognize merit in business methods, and appreciate fair and square dealing.

Study out the rebus, write the words plainly, and mail or bring your reply to our store, 230, Jasper Avenue West, Edmonton, without delay, and we will list the answers in the order in which they are received and award the prizes as mentioned above. In our large warehouses in Edmonton we carry over fifty different styles, in Mahogany, Walnut, Oak, and other fancy woods, and have just received a large shipment of SPECIALLY SELECTED HIGH GRADE PIANOS fresh from the manufacturers, and for the convenience of our customers a representative stock of these beautiful instruments will be on exhibition in Best Bros. Furniture Store, Main Street, (Opposite Court House), Red Deer, on and after June 15th, when our prize winners may make their selection with assurance of the same liberal treatment they would receive in Edmonton.

Every courtesy will be extended by way of terms, etc.

Do not delay, but send in your reply at once direct to the Masters Piano Co., Edmonton.

THE MASTERS PIANO COMPANY,  
236, JASPER AVENUE WEST,  
EDMONTON ALTA.

We wish to impress our readers with the fact that we ARE THE ONLY STRICTLY ONE PRICE PIANO HOUSE IN ALBERTA.

Every piano in our stock has a card attached on which the price is marked in plain figures, on the lowest margin consistent with judicious business principles.

We guarantee every piano we put out to be exactly as represented.

Strathcona, Alberta, Feb. 27th, 1909.

The Masters Piano Co.

Dear Sirs—It affords me pleasure to say that I am very much pleased with the piano which I bought of you last November. I had no notion of buying a piano of the kind I saw your rebus in the paper, however I thought I would answer the puzzle and was quite agreeably surprised when you informed me in return that you were sending me a certificate for \$100.00, and that if I purchased an instrument this amount would be deducted from the regular selling price, and I am pleased to say you were as good as your word, and made this reduction as advertised. Further I would like to say that I found the price of your instruments no higher than any other dealers handling high grade pianos, therefore I consider I am just one hundred dollars ahead on my purchase.

Thanking you for courteous treatment, I beg to remain,  
Yours very respectfully,  
V. T. RICHARDS.

### YOU GOOD-FOR-NOTHING DUNCE!

How many unhappy children's sensitive natures have been wounded by such an exclamation from an overbearing teacher or parent discouraged on account of the child's stupidity. And all because the poor kid was handicapped with imperfect vision, unsuspected by either child or instructor.

Perhaps you think this is far fetched, but I tell you it is a solemn fact. I have not space here to go into detail, but if you have reason to suspect trouble with your children's eyes, bring them to me. I can tell you positively, without asking a question, if the child is too young or too shy to answer questions.

If they do not need glasses, I'll tell you so, and charge you say \$2.00. It is worth it, don't you think?

W. Froese, manager of the Government Telephone Company, Calgary, spent Sunday in town, the guest of Mrs. Bagley and his old friend P. Pidgeon. Mr. Froese said the automatic system would without doubt be adopted by the government if the money is where more than two hundred phones were used.

A lad named Erick Strinbalde, who only arrived in the country a few days ago, met with a severe accident Monday by being shot in the arm with a twenty-two rifle. He was out gopher shooting with E. P. Conqvist's son and they leaned the rifle against the wall and it fell in some way and went off the ball entering near the shoulder and lodging in the bone. The boy, who is about eleven years old, was removed to the hospital and is doing as well as could be expected.

It must be admitted by every one that our Red Deer people are progressive. Is there any town of its size on the continent that has as many phones per capita in use, as many electrically lighted houses or as many homes served with that great blessing of civilization i.e., water and sewer connections. Smith & Gaetz tell us that in their plumbing department which is being managed by Mr. Edgington, they expect to be rushed with work right up to X'mas and that they have already turned out a great deal of work.

One of the pleasant things of the season was the At Home given by the organized Bible Class of the Methodists at Mrs. Kirk's on Friday evening. The hall was crowded. He will give the children a treat Saturday afternoon.

F. A. Billingshurst, of Water Glen, was in town over Sunday in connection with a very interesting social function. When he went north some time ago he was told he would be met with open arms on his return. When he got off the train he looked for his open arms, but—well, it was raining, and the lady no doubt thought she would look wet. He was disappointed. He had the proud satisfaction of making somebody else supremely happy.

The board of directors of the Memorial Hospital met at the Hospital on Friday evening last at 5 o'clock, and looked over the premises. President F. H. Tallman, S. McKee, T. A. Gaetz, G. W. Allen and Carwell were present. The object of the meeting was to examine the work recently done to the building, examine the water supply, and the sewer disposal, as the Red Deer Brick Company are anxious to secure a part of the hill property in exchange for lots on Victoria avenue, which would give the Hospital a frontage on said street.

J. I. McIntosh, editor and proprietor of the Guelph Ont., Mercury, was in town Thursday last and was driven out to Mr. Sherman's and around the town by E. Michener, M. L. A. Galbraith, of the Advocate, on the Mercury and he together with Mr. Rutter, of the Alberta, who is also an old Guelph boy, gave a little dinner to Mr. McIntosh to which Mr. Michener, Mayor Botterill and about a dozen of the leading citizens were invited to meet the guest of the evening. A very quiet but pretty wedding took place at the home of Mr. and Mrs. Frederick Fisher, Sr., in North Red Deer, on Saturday, June 5th, 1908, when their daughter, Agnes Minnie, was united in marriage to Edward George Boddy, a young and progressive farmer of Water Glen, but formerly of Red Deer. The bride was supported by Miss Tillie Tingley and the groom by Mr. Fenton Billingshurst, both of Red Deer. The ceremony was performed by the Rev. C. W. G. Moore in the presence of only intimate friends and relatives. The happy couple left on the evening train for a brief honeymoon at Edmonton, before taking up their residence in Water Glen.
